

# MF350

## MF350 Muffle Furnace for Metal Melting

Compact, lightweight design, easily portable.

Ideal oven for melting small quantities of metals and alloys.

Heating by means of low inertia heaters.

Thermal insulation with ecological ceramic fiber.

Digital Microprocessor Control

Pt-Rh Platinum-Rhodium thermocouple

Temperature range from + 200 ° C to + 1.120 ° C

MADE IN ITALY

## Standard Equipment

1 Graphite crucible to prevents oxidation of materials during melting.

## Documentation

1 Instruction Manual

1 CE certificate

1 Certificate of Guarantee

| <b>Model</b>            | <b>MF350X40</b> | <b>MF350X41</b> |
|-------------------------|-----------------|-----------------|
| Max Temp. ° C           | 1.120           | 1.120           |
